Professional Summary

A cross-disciplinary technologist, content creator, and strategist with deep skills in full-stack web development (Next.js / React / TypeScript), AI/ML product integration, Web3 smart contract development, cybersecurity & ethical hacking, and algorithmic forex systems. I build real-world digital products and share the journey via content that educates and inspires. I aim to lead tech ecosystems that combine product, education, and monetary value — especially in Africa and global markets.

Core Competencies

- Full-stack web architecture, scalable system design
- AI / LLM integrations, data pipelines, RAG frameworks
- Blockchain & smart contract development, tokenomics
- Security & pentesting (web, mobile, cloud)
- Forex and algorithmic trading strategies & risk systems
- Content creation, brand strategy, audience growth
- DevOps, CI/CD, testing, performance & optimization

Technical Skills

Domain	Tools & Technologies
Frontend	React, Next.js, TypeScript, Tailwind CSS, Redux / Zustand / React Query
Backend / APIs	Node.js, Express, Supabase, Firebase, PostgreSQL, MongoDB
AI / ML	Python, LangChain, OpenAI API, TensorFlow / PyTorch, scikit-learn, vector databases

Domain	Tools & Technologies
Web3 / Blockchain	Solidity, Hardhat, Foundry, Ethers.js, Web3.js, IPFS, Token standards (ERC-20 / ERC-721)
Security / Hacking	Burp, Nmap, Wireshark, Metasploit, Frida, OWASP ZAP, pentesting frameworks
DevOps / Infra	Docker, Kubernetes (basic), GitOps, CI/CD pipelines, Vercel, Netlify, AWS / GCP (basics)
Trading & Analytics	MetaTrader, Python (pandas, backtesting), TradingView scripting
Productivity	Notion, Figma, Canva, OBS, Video editing tools

Professional Experience

Founder / CTO — Tech X4 (Tech / Brand Ecosystem)
Dates: January 2018 – Present

- Architected and built multiple web platforms (Next.js, Supabase/Firebase) with uptime, performance, and security standards.
- Designed end-to-end brand ecosystems (web, content, funnel, automation) for clients across tech, real estate, NGOs.
- Led content + media strategy: produced tutorials, case studies, and tech education content, driving audience growth.
- Managed client engagements, delivered MVPs, scaled features, and ensured maintainability.

Freelance / Contract Technical Lead
Dates: May 2021 – present

- Delivered custom web apps and integrations for clients globally using React, TS, Node.js.
- Developed reusable component libraries, automation scripts, and CI/CD pipelines.
- Mentored junior developers and code-reviewed contributions.

Forex Strategy Developer / Analyst
Dates: August 2022– Present

- Built trading strategies: backtested in Python, refined based on expectancy & risk metrics.
- Documented every trade in a journal with rationale, outcome, and lessons.
- Created content explaining strategies and pedagogy for aspiring traders (YouTube, blog).

Projects & Achievements

- **EDU-X4 Platform** — educational web app with multilingual Bible + study modules and offline modes.
- **Bible Study & Prayer Tracker App** — journaling, analytics, and progress tracking across devices.
- **AI Trading Dashboard** — a web interface integrating GPT-based reasoning for trade signals and explanations.
- **Secure dApp Starter Kit** — templates + contracts + security checks for budding Web3 creators.
- **Ethical Hacking Writeups** — publicly published vulnerability assessments / security posts (redacted as needed).

Education & Certifications

- (If in progress) **B.Sc. in Computer Science / Software Engineering**
- **TryHackMe / HackTheBox** — ethical hacking / pentesting (intermediate)
- **Meta Frontend Developer Professional Certificate**
- **Google AI Essentials (Coursera / Equivalent)**
- **Alchemy / Web3 Developer Program**
- (Planned) **Certified Algorithmic Trader (2025)**

Influence, Brand & Community

- Creator behind channels (YouTube, social media) producing tech, trading, and growth content.
- Hosts community discussions, code walkthroughs, live streams, and mentorship pieces.
- Aligns purpose with digital education and impact in young developer communities and churches.
- Builds trust by sharing process, failures, and learnings — not just polished wins.
